Los Angeles, CA • zeusya7015@gmail.com • www.linkedin.com/in/yuhwa-lee

EDUCATION

Georgia Institute of Technology

B.S. in Computer Science, Incoming Transfer Student

Fall 2026

Atlanta, GA

Santa Monica College

A.S. in Computer Science, **GPA:4.0**

Relevant Coursework: Data Structures, OOP, Java, C++

Aug 2024 - Jun 2026

Santa Monica, CA

EXPERIENCE

Software Engineer Intern, DNC Construction

Jun 2024 - Aug 2024

Cheonan, Korea

- Built a **Python-based** bid automation tool that reduced manual tracking time by **60%** for construction tender workflows.
- Designed a **MySQL** database to organize **200+ project** records, including base prices, deadlines, bid status, and historical award outcomes.
- Implemented pricing logic and validation checks to analyze bid scenarios based on base price, target ratio, and bidding constraints.
- Debugged calculation and **database** errors to improve data accuracy and support faster internal bid review.

Full-Stack Developer, HackSMC

Mar 2026 - May 2026

Santa Monica, CA

- Built a registration and login system using **React** and database integration to manage hackathon participant data.
- Developed **REST API** endpoints for judge scoring workflows, allowing team scores to be submitted, stored, and processed through backend logic.
- Implemented automated ranking logic to calculate winning teams from backend stored judge scores and display final results on a dedicated results page.
- Tested and debugged end-to-end data flow across registration, judge scoring, database updates, and winner selection workflows.

PROJECT

Re-bias, AI-Powered Bias Reduction Solution

Nov 2025

HackCC Hackathon

- Built an AI-powered bias analysis platform using the **OpenAI API** to detect, score, and visualize bias in online content.
- Developed **Node.js** backend features for bias analysis requests, algorithm reset support, and user history tracking.

LEADERSHIP

President, LIKELION SMC

Aug 2025 - Present

Santa Monica, CA

- Lead beginner-focused coding workshops for 10+ members in **Python, HTML, CSS, JavaScript** web development skills and problem solving.
- Designed structured project sessions to help new members build programming fundamentals through collaboration.

SKILL

Languages: C++, C#, Java, Python, TypeScript, JavaScript, SQL, HTML, CSS

Frameworks/Tools: Node.js, React.js, MySQL, Git, GitHub, VS Code

Core Skills: Algorithms, Problem-Solving, Machine Learning, API, Debugging, Full-Stack Web Development

AWARD

AMATYC Mathematics Competition, 1st Place

Nov 2025
